

Dear FCC,

What on Earth is happening to our public airwaves?

It would be appalling to allow Sinclair Broadcast Group to preempt local programming just prior to an election in order to run an attack piece on one of the presidential candidates. I wouldn't want to see this done to a Democrat or Republican. It is not objective, and it could unfairly sway voters' minds this close to the general election.

Please intervene and disallow this broadcast, which is clearly in violation of FEC law.

Thank you from a very concerned citizen.

Philip Platt
